RESPONSE TO OFFICE ACTION

In response to the office action dated October 23, 2003, please amend the above-identified application as follows. Applicants respectfully request reconsideration of the application based on the following amendments and remarks.

IN THE CLAIMS

1. (Once amended) A method for detecting road users and obstacles as a function of camera images so as to determine their distance from an observer and to classify them, comprising the steps of:

a1 identifying regions within a two-dimensional camera image using a classifier designed for detecting road users and obstacles;

marking and ranging, in a subsequent step, the identified regions using a distance-measuring sensor with respect to their distance from the observer; and

subsequently type classifying the identified regions using a type classifier.

*
What type of vehicle.
